17 There's also another chatroom run by a TD user here.

9 If people are going to join that one make sure to join both so we don't end up fragmenting the coordination efforts..

Hey there Drink!

Try this: Go back to the beginning - <https://app.element.io/#/register> - and click on the Far Right box FIRST to access the 'advanced server'.

Then type in <https://matrix.donaldsarmy.us>

And then enter username and new password to setup a new account. See you there soon!

You should see 'General' with a lot of chatting. For the states, click on the + sign next to 'Rooms' then 'Explore Public Rooms', choose your state, then 'Join'.

If you don't see any rooms, I'd start over with a new browser and take it from the top.

1 Why not just go old school and use IRC?

1 Guys, just use Telegram app, it's comfortable and fully safe and encrypted. No chance of being banned by them or whatever. By far the best option.

1 Why Matrix/Element?

1. It's open source. It isn't controlled by a single company that can be pressured by alphabet agencies or foreign countries.
2. It's distributed. There isn't a single point of failure.
3. It's encrypted.

1. Visit and make an account <https://patriots.win/register>

2. When creating your account, choose "advanced" and use the homeserver URL

<https://matrix.donaldsarmy.us>

Keep daily backups of the shared files you've worked on.
